

WATCHMAN

Virtual Stakeout System

Product Catalog

March 2018

The Virtual Stakeout System is available as complete, pre-configured surveillance kits containing everything you need to deploy and be up and running as quickly as possible.

The *VSS Pole Mount Camera System* is a single camera VSS Kit that includes a pre-configured camera and Single-View Portable Video Data Recorder (SPVDR). It is also an ideal “evaluation kit” to check out the Watchman technology and ease of deployment.

The complete *VSS Covert 3-Camera Surveillance Kit* provides additional Wall Mount and Vehicle Mount cameras and a Multi-View, iPad-based MPDVR – allowing you to rapidly deploy a 2 or 3-camera solution for larger surveillance sites.

Item	Qty	Model No.	Complete Systems	Unit Price

The *VSS Covert 6-Camera Event Monitoring System* allows the rapid deployment of up to 6 cameras to cover major incidents or public events. Six cameras are provided in total - 4 pole mounts with wall mount and vehicle mount cameras along with 3 Single-View and 1-Multi-View mobile PDVRs.

The addition of the *Watchman Command Console* provides a large-screen viewing platform for multi-camera Command and Control of the entire system. The Command Console is also self-contained and comes with its own high-powered battery system, wireless keyboard, and 500GB SSD Hard Drive for multi-camera local recording – all protected in a separate customized, ruggedized Pelican case.

Item	Qty	Model No.	Complete Systems	Unit Price
